Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1-4,6-9,11,12,31,34,37-39,44-48 and 51-54.

DETAILED ACTION

Applicants response filed 10/01/2008 is acknowledged.

Claims 1-4, 6-9, 11-12, 31, 34, 37-39, 44-48, 51-54 are pending.

IDS: Presently considered and previously considered IDS documents are attached.

Priority Document: Acknowledgement is made of a claim for foreign priority. Also see Office Action Summary.

Applicants Remarks pertaining to previously presented rejections will be responded after action on this Election/Restriction.

In view of Applicants remarks upon further consideration, a new Election/Restriction is hereby made in accordance with CFR § 1.142 Requirement for restriction, which states that .requirement will normally be made before any action on the merits; however, it may be made at any time before final action.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

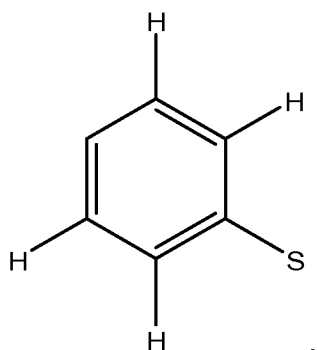

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-4, 6-9, 11-12, 31, 34, 37-39, 44-48, 51-54 drawn to compounds that do not have heterocyclic moieties.

Group 2, claim(s) claim(s) 1-4, 6-9, 11-12, 31, 34, 37-39, 44-48, 51-54, drawn to compounds that do not contain heterocyclic moieties. If this group is elected, election of species and further restriction depending on the heterocycle would be necessary.

The inventions listed as Groups 1-2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invariable unit present in both the groups is

This structural unit is not a contribution over the prior, because it is found in thiophenol (CAS Number: 108-98-5) which is well known in the prior art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
